			deliverables from the Consultants.
5.	Page No. - 11 Scope of Work – S. No. 2 Collection of existing information as well as primary data especially on the hydrography, geotechnical, water quality, sediment, ecology and archeological settings of the project	Please clarify if the technical studies have been completed recently? Also, request clarification on the list of data available with respect to these elements.	No specific technical studies have been conducted recently. Available data will be shared during the course of consultancy.
6.	Scope of Work	Is it acceptable to conduct ecological studies for one month and augmented with secondary data? Due to the time constraint of 75 days, the time frame required to carry out three season studies will take more than 180 days.	Acceptable provided the results of the study should be sufficient to get the environment clearance.
7.	Clause 2.16 IPA Empanelment	The RfP is being circulated only to the empaneled consultants of IPA and through this RfP technical proposal comprising of approach and methodology and the financial offer along with key personnel required specifically for this project is requested from the consultants for evaluation	This document is for all the interested consultants/parties and not only for the empaneled consultants of IPA. Please see Addendum No-1.
